

Project № B2.9a.10 "Strengthening primary Medical care in Isolated and deprived cross-border arEas (Smile)" is co-funded by the European Regional Development Fund (ERDF) and by national funds of the countries participating in INTERREG V-A "Greece-Bulgaria 2014-2020"Cooperation Programme

Deliverable 3.3.2 Technical-renovation works

The repairs in MHAT Ardino within the project included repairs of the departments for primary health care (14 cabinets) that are situated on 2 floors in one of hospital's winds, which were in very poor condition. Additionally, the premises of the laboratory and the X-ray were also repaired in accordance with all respective requirements. Respectively, walls were renovated; all floors, lighting and doors changed. Additionally, 3 toilets were renovated.
